

Practitioner Application Guidelines

The Practitioner Application is an unbiased review of a research article by a practicing healthcare manager written for the practicing healthcare manager. Intended to make the concepts in the article more pertinent to the practitioner, the Practitioner Application offers insight and recommendations on applying the concepts to real organizational situations.

The Practitioner Application

- is written by an ACHE affiliate, preferably a Fellow, who is not affiliated with the author(s) of the article or the research site;
- is approximately 500 words;
- includes the practitioner's opinion (whether positive or negative) about, knowledge of, and experience with the concepts in the article;
- offers ways of implementing the concepts and enumerates their strengths and weaknesses; and
- mentions references to or citations of current trends, discussion, practice, or literature on the concepts in the article.

A brief summary of the article is appropriate, but it is not required.
