

YOUR BOARD CERTIFICATION IN HEALTHCARE MANAGEMENT GIVES YOU AN EDGE WITH EXECUTIVE SEARCH FIRMS

American College of
Healthcare Executives
for leaders who care®

Healthcare executives who have demonstrated their commitment to the profession by becoming board certified in healthcare management (CHE® or FACHE®) have proven to their boards, employees, and the public that they have the knowledge and skills necessary to meet the challenges of managing today's healthcare organizations. That is why when we interview candidates for an executive search, those who are board certified in healthcare management have an advantage.
