

JOURNAL OF HEALTHCARE MANAGEMENT **SUBMISSION GUIDELINES**

Please note: *JHM* does not publish advertisements, announcements, articles appearing to be written to promote any person or organization, or outside editorials. Consulting a copy of the journal before submitting a manuscript is highly recommended.

The *Journal of Healthcare Management* (*JHM*) is the official journal of the American College of Healthcare Executives (ACHE). Published bimonthly, *JHM* is a peer-reviewed publication dedicated to providing healthcare leaders with the information they need to manage complex healthcare issues and to make effective strategic decisions. Readers of *JHM* include practicing healthcare managers, providers, researchers, consultants, and policymakers. The journal is a practical resource for the presentation and exchange of current healthcare management information and research.

ACCEPTANCE CRITERIA FOR THE “ARTICLE” SECTION

Original contributions are invited in the form of full-length research articles. Only such contributions are considered for the peer-review process. Every submission is acknowledged on receipt and reviewed by the editorial staff, but only appropriate submissions are sent for external review. All manuscripts should

- Include a 250-word Executive Summary.** This summary should touch on the main points of the research and the application/implications of the findings.
- Be no longer than 4,000 words.** This word count excludes references, tables, figures, Executive Summary, and Practitioner Application. Manuscripts that exceed this length will not be reviewed.
- Be the author’s original work.** All elements of the manuscript (including data, findings, and illustrations) should not have been previously published. The author is responsible for securing permission for any material reprinted in the manuscript from another copyrighted work. The editor should be informed at submission if any portion of the manuscript has been disseminated electronically or otherwise.
- Not be under consideration by another publication.** No portion of the manuscript can be submitted to another journal while under review at *JHM*.
- Contain up-to-date information.** Dated data, references, and trends should be avoided, except when providing historical background or comparing to current trends.
- Be written in a clear, concise style.** All points should be adequately supported.

Please note: Each article will be accompanied by a 500-word **Practitioner Application**. *JHM*’s editor will coordinate the writing of this Practitioner Application (PA) after the paper has been accepted. Suggestions for PA writers from the author are welcome. The PA is a response to the findings and recommendations in the article. It must be written by a practicing healthcare

manager who is **not** affiliated with the author or with the institution in which the research was conducted. The PA writer must be an affiliate of ACHE.
