

FUNDAMENTALS OF HEALTHCARE FINANCE

Louis C. Gapenski

Corrections

Chapter 9

Page 263: On the spreadsheet illustration, change the formula in Cell B10 from “=IRR(A2,A3:A8)” to “=IRR(A3:A8,A2).”

Change the text below the spreadsheet to read: “Note that we have placed the IRR function in Cell A10. The first entry in the formula (A3:A8) specifies the range of cash flows to be used in the calculation, while the next entry (A2) gives a starting value for the spreadsheet calculation. The answer, 11.1%, is displayed in Cell A10.”
