

DETAILED CONTENTS

FOREWORD.....xiii

PREFACExv

I Science and Knowledge Foundation

1	Healthcare Quality and the Patient, by Maulik S. Joshi and Donald Berwick.....	3
	Important Reports.....	4
	A Focus on the Patient.....	6
	Lessons Learned in Quality Improvement.....	7
	Case Study.....	17
	Conclusion.....	21
	Study Questions.....	22
	Notes.....	22
	References.....	23
2	Basic Concepts of Healthcare Quality, by Leon Wyszewianski...25	
	Definition-Related Concepts.....	25
	Measurement-Related Concepts.....	33
	Implications.....	39
	Study Questions.....	39
	Note.....	40
	References.....	40
3	Variation in Medical Practice and Implications for Quality, by David J. Ballard, Robert S. Hopkins III, and David Nicewander.....	43
	Background and Terminology.....	45
	Scope and Use of Variation in Healthcare.....	47
	Clinical and Operational Issues.....	48
	Keys to Successful Implementation and Lessons Learned from Failures.....	51
	Case Study.....	53
	Conclusion.....	56
	Study Questions.....	56
	References.....	59

4	Quality Improvement: The Foundation, Processes, Tools, and Knowledge Transfer Techniques, by Kevin Warren	63
	The Quality Foundation	63
	Quality Improvement Processes and Approaches	67
	Quality Tools	73
	Knowledge Transfer and Spread Techniques	76
	Conclusion	81
	Study Questions	81
	Note	82
	References	82

II Organization and Microsystem

5	Milestones in the Quality Measurement Journey, by Robert C. Lloyd	87
	The Measurement Challenge	88
	Milestones Along the Quality Measurement Journey	88
	Conclusion	105
	Study Questions	105
	Notes	105
	References	106
6	Data Collection, by John J. Byrnes	109
	Categories of Data	109
	Considerations in Data Collection	109
	Sources of Data	112
	Case Study in Clinical Reporting	123
	Conclusion	127
	Study Questions	127
	Acknowledgments	127
	Notes	128
	References	129
	Suggested Reading	129
7	Statistical Tools for Quality Improvement, by Jerod M. Loeb, Stephen Schmaltz, Linda S. Hanold, and Richard G. Koss	131
	Fundamentals of Performance Measurement	131
	Control Chart Analysis	138
	Comparison Chart Analysis	142
	Using Data for Performance Improvement	147
	Conclusion	149
	Study Questions	150
	Appendix 1: Control Chart Formulas	150

	Appendix 2: Comparison Chart Formulas.....	154
	Appendix 3: Case Studies	158
	Notes	166
	References	166
8	Physician and Provider Profiling, by David B. Nash, Adam Evans, and Richard Jacoby	169
	Background and Terminology	169
	Scope and Use of Profiling in Healthcare	171
	Keys to Successful Implementation and Lessons Learned	178
	Case Study	179
	Study Questions	183
	References	184
9	Measuring and Improving Patient Experiences of Care, by Susan Edgman-Levitan	187
	Regulatory and Federal Patient Survey Initiatives.....	188
	Using Patient Feedback for Quality Improvement.....	190
	Scope and Use of Patient Experiences in Healthcare	197
	Keys to Successful Implementation	204
	Lessons Learned, or “The Roads Not to Take”	206
	Case Study	210
	Conclusion	212
	Study Questions	212
	Notes	212
	References	213
	Other Useful Resources.....	214
10	Dashboards and Scorecards: Tools for Creating Alignment, by Michael D. Pugh	217
	Background and Terminology	217
	Scope and Use of Dashboards and Scorecards in Healthcare	219
	Clinical and Operational Issues	225
	Keys to Successful Implementation and Lessons Learned	230
	Case Study: St. Joseph Hospital	236
	Conclusion	238
	Study Questions	241
	Notes	242
	References	242
11	Patient Safety and Medical Errors, by Frances A. Griffin and Carol Haraden	243
	Background and Terminology	243
	Scope and Use in Healthcare Organizations	247

	Clinical and Operational Issues	258
	Case Study: OSF Healthcare System	261
	Conclusion	266
	Study Questions	267
	References	267
12	Information Technology Applications for Improved Quality, by Richard E. Ward	269
	Background and Terminology	269
	Taking a Lesson from Other Industries.....	272
	The Emerging Field of Medical Informatics	274
	Two Tiers of Clinical Information Technologies.....	274
	Technologies for Different Types of Clinical Care Management Initiatives	278
	Requirements and Architecture Framework for Clinical Information Technology.....	279
	Workflow Automation Technology Applied to Clinical Processes.....	284
	Other Clinical Information Technology Components	286
	Information Needed for Practice Improvement on a National Level.....	289
	Case Examples	291
	Overall Return on Investment of Clinical Information Systems.....	295
	Key Strategy Debates.....	301
	The Challenge	306
	Study Questions	309
	References	309
13	Leadership for Quality, by James L. Reinertsen	311
	Background	311
	Scope and Use of Leadership Concepts in Healthcare	315
	Clinical and Operational Issues	319
	Keys to Successful Quality Leadership and Lessons Learned ..	320
	Case Study of Leadership: Interview with William Rupp, MD	322
	Conclusion	327
	Study Questions	327
	Notes	327
	References	328
14	Organizational Quality Infrastructure: How Does an Organization Staff Quality?, by A. Al-Assaf.....	331
	Quality Assurance, Quality Improvement, Quality Control, and	

Total Quality Management.....	331
Management Commitment	332
Allocation of Resources	335
Organizational Structure	336
Increasing Awareness of Healthcare Quality	338
Mapping Quality Improvement Intervention.....	338
Challenges, Opportunities, and Lessons Learned for Sustaining QA/QI	342
Case Example	345
Study Questions	346
References	346
Suggested Reading	347
15 Implementing Quality as the Core Organizational Strategy, by Scott B. Ransom, Thomas J. Fairchild, and Elizabeth R. Ransom	349
Implementing Quality in Healthcare Organizations	352
Case Study: An Academic Medical Center’s Quality Journey	363
Conclusion	373
Study Questions	373
Notes	374
References	374
16 Implementing Healthcare Quality Improvement: Changing Clinician Behavior, by Valerie Weber and John Bulger	377
Understanding Change Management in Healthcare	377
Active Implementation Strategies.....	384
Addressing the Cost of Implementation.....	391
Keys to Successful Implementation and Lessons Learned	393
Case Studies	394
Conclusion	399
Study Questions	399
Note	399
References	400
III Environment	
17 The Quality Improvement Landscape, by Jean Johnson, Ellen Dawson, and Kimberly Acquaviva	407
Quality Improvement Organizations.....	407
Drivers of Quality.....	408
Measurement Development Process.....	413

	Trends in Quality Improvement.....	415
	Trends and Initiatives in Specific Healthcare Sectors.....	419
	Case Studies	425
	Conclusion	428
	Study Questions	429
	References	429
18	Accreditation: Its Role in Driving Accountability in Healthcare, by Greg Pawlson and Paul Schyve.....	433
	Background and Terminology.....	433
	Scope and Use of Accreditation in Healthcare:	
	Successes and Failures.....	436
	The Future of Accreditation: Challenges and Changes.....	443
	Conclusion	452
	Study Questions	452
	Notes.....	452
	References	453
	Other Useful Resources.....	454
19	How Purchasers Select and Pay for Quality, by Francois de Brantes.....	457
	Background and Terminology.....	458
	Case Study: Bridges to Excellence: Building a Real Business	
	Case for Better Quality Care	460
	Defining the Program Specifications—Measures, Specific Incentives, and Consumer-Focused Elements	464
	Designing the Program’s Implementation	470
	Program Evolution.....	471
	Conclusion and Key Lessons	471
	Study Questions	472
	Notes.....	472
	References	472
	INDEX	475
	ABOUT THE AUTHORS
