BOOK OF THE YEAR WINNERS
The move toward value-based care is happening at an unprecedented rate and requires healthcare enterprises to build delivery models that focus on clinical and business outcomes, not on volume. This shift requires a new infrastructure that supports the digitization, standardization, commoditization, and globalization of the healthcare industry. In *Essential Operational Components for High-Performing Healthcare Enterprises*, Jon Burroughs and other nationally respected experts highlight the operational building blocks necessary to engage, align, and transform healthcare organizations into integrated delivery systems capable of delivering population healthcare outcomes in new ways. This forward-thinking book defines the fundamental operational components for achieving success in a value-based world.

Other industries have undergone a similar transformation; now healthcare, the most complex industry of all, must complete these changes to excel in the new global marketplace.

**Order code: 2362**  
**Member price: $47.60; Non-member price: $68**

This highly respected annual guide to healthcare trends will help organizations prepare for the future. In *Futurescan 2019–2024*, a panel of industry thought leaders addresses eight key issues regarding healthcare change and transformation. The expert insights in these pages are supported by data from a survey of healthcare leaders across the country. An essential tool for strategic planning, this latest edition of *Futurescan* examines notable topics including value-based care, digital health, bioelectronics medicine, consumer-driven physician networks, and the opioid epidemic.

PACKS OF 15 COPIES ARE AVAILABLE AT A 40% DISCOUNT OFF THE SINGLE-COPY PRICE.

**Order code: 2391**  
**Member price: $48; Non-member price: $48**

*For more information, visit ache.org/HAP/Futurescan*
The revolutionary shift toward value-based reimbursement is compelling healthcare organizations to produce demonstrated, measurable results for the services they provide—and to deliver those services in a manner that increases access to care and enhances patient engagement. Healthcare leaders, at the epicenter of this shift, are charged with guiding their organizations to improve quality, streamline costs, and preserve operating margins. This book is a practical guide for healthcare leaders tasked with improving the financial performance of their organizations. Bridging the gap between performance improvement theory and its real-world application, this book applies systems engineering principles and methods to such critical topics as strategic growth, portfolio management, revenue cycle, and clinical utilization improvement.

Order code: 2358
Member price: $40.60; Non-member price: $58

A strong, integrated physician group is essential for any healthcare organization looking to improve patient care within its health system and throughout its community. Equip yourself with the skills, knowledge, and tools you need to turn your organization’s employed physician network into a strategic asset. This book offers a clear framework for a network’s growth—from the Novice phase through the High-Performing phase—and it highlights the key elements that contribute to a successful evolution to high performance. With this book, healthcare leaders will be able to pinpoint their network’s current phase and then apply practical advice and recommendations for priorities that will likely need to be addressed for the organization and network to progress through the more advanced phases. Case studies, best practices, concrete examples, sidebars, and checklists help leaders put their plans into action. Ultimately, executives and organizations will be able to build employed physician networks that reliably manage quality, cost, and access.

Order code: 2376
Member price: $40.60; Non-member price: $58

This book explains how healthcare leaders can navigate the
difficult issues that arise when multiple organizations from
different sectors and with different operating models, objectives,
and cultures work together toward a shared purpose. By using this
book’s health ecosystem leadership model (HELM), leaders can
shift their mind-set toward a broader purpose, focusing not just
on healthcare but on health and promoting wellness. The authors
provide a roadmap for developing new leadership competencies.
Using HELM, innovative leaders can work across the various
segments of healthcare to meet the mission of creating healthier
communities. To illustrate how this model is best applied, the
authors offer a detailed fictional case study, as well as real-life
examples from leaders who have demonstrated success with
collaborative ecosystem initiatives.

Access to ACHE’s journals and magazine is just a click away!

The Journal of Healthcare Management, the official journal of ACHE, presents peer-reviewed research articles, columns by experts, and commentary by practitioners. Frontiers of Health Services Management offers articles on evolving trends by leaders in the field, with each issue dedicated to a timely healthcare management topic.

For more information, visit ache.org/Journals
ACHE members receive online access to the Journal of Healthcare Management and Frontiers of Healthcare Management, as well as their choice of journal in print.

In Healthcare Executive, leaders share their knowledge of emerging trends and issues and offer insight beyond that of general news magazines.

For more information, visit ache.org/HEMagazine
ACHE members receive a print copy and electronic access for Healthcare Executive.
Save money and time!

Earn ACHE Qualified Education credits in your home or office. Learn where YOU like to learn! Self-Study courses are portable – take them with you on planes and trains, or learn comfortably at your home or office.

Earn ACHE Qualified Education credits when YOU need them! Self-Study courses are ready for you any time – no waiting for the next seminar or webinar that fits into your schedule.

4 easy steps for completing a course and earning Qualified Education Credits:
1. Purchase a Self-Study course and the corresponding book covering the topic that interests you.
2. Read the course booklet and the assigned chapters in the corresponding book.
3. Answer the self-graded questions.
4. Submit your completed course forms and self-graded test; you will receive an ACHE education status letter.

IT’S THAT EASY! Price per course: $405 ACHE Member/$495 Nonmember

ACHE Tuition Waiver Assistance Program
The American College of Healthcare Executives makes a limited number of education tuition waivers available to ACHE Members and Fellows. Tuition waivers are awarded based on financial need and are available for Self-Study courses marked with an asterisk. For more information on the ACHE Tuition Waiver Assistance Program, visit ache.org/tuitionwaiver or call (312) 424-9400.

A note about the Self-Study Program
ACHE’s Self-Study Program offers you individual courses as well as multiple courses that make up a series. Each course – even if it’s part of a series – is worth 6 hours of ACHE Qualified Education credit. More information on advancement and recertification is available in the Credentialing area of ache.org.

Choose from courses on timely issues as well as healthcare management fundamentals. Topics covered include:

- Building self awareness to prevent career derailment
- Understanding and influencing physician behavior
- Improving the experience of care in the emergency department
- Understanding financial statements Course
- Making better capital investment decisions

For more information and a complete list of courses, visit ache.org/SelfStudy.

The American College of Healthcare Executives is an international professional society of more than 40,000 healthcare executives who lead hospitals, healthcare systems, and other healthcare organizations.

ACHE is known for its prestigious FACHE® credential, signifying board certification in healthcare management, and its educational programs – including the annual Congress on Healthcare leadership, which draws more than 4,000 participants each year. ACHE’s established network of more than 80 chapters provides access to networking, education, and career development at the local level.

In addition, ACHE is known for its magazine, Healthcare Executive, and its journals, the Frontiers of Health Services Management, as well as groundbreaking research, career development, and public policy programs. ACHE’s publishing division, Health Administration Press, is one of the largest publishers of books and journals on all aspects of health service management, including textbooks for use in college and university courses.

Through such efforts, ACHE works toward its goal of being the premier professional society for healthcare executives dedicated to improving healthcare delivery.

Call (312) 424-9400 for membership information, or visit the Join ACHE section of the ACHE website at ache.org.
