Create a Custom Textbook for Your Course!
To create your custom textbook, visit www.academicpub.com.
Create Your Customized Textbook in 4 Easy Steps

1. Get Started
Visit [www.academicpub.com](http://www.academicpub.com) to create a free account and set up a new project.

2. Build Your Customized Book
Select content from anywhere and everywhere to load into your book including:

- More than 12 million articles and book chapters stored in the Content Library
- Your own files — from lecture notes to syllabi and more.
- Links to web pages, news articles, and video clips

You can easily review, reorganize, and edit all of the content you have added. Stop and start as often as you wish. The cost of your custom book automatically updates as you add content to your book.

3. Preview Your Book
Preview every page of your book to see exactly what your students will receive. Edit or reorganize your choices as needed.

4. Complete Your Book
After you finalize and adopt your completed book, it will be available for purchase at your designated term start date. Each book has a unique purchasing link for students where they can choose a digital or print format. Or forward the link to your bookstore to make print copies available on campus.

To create your custom textbook, visit [www.academicpub.com](http://www.academicpub.com).
